PINNED PROJECTS

my-zodiac-ai — LIVE

Built solo from zero — AI horoscopes, real-time chat, Stripe payments, and a native Android app. 1,500 users in 4 months.

1,500+ users | 99.9% uptime | 15+ microservices | 85% test coverage

Vue 3 · NestJS · MongoDB · Website

oboard-crm — Production

Enterprise OKR platform. Owned the frontend — workflow editors, real-time dashboards, and a component library used across the whole product.

TypeScript · Vue 3

windsurf-workflows — AI

Personal AI dev tooling that takes me from idea to working feature 60% faster. Includes prompt templates, code generation rules, and test scaffolding.

60% faster dev | 1000+ tests

AI/ML

eda-microservices-template — Template

Skip the boilerplate. EDA + CQRS + Docker + tests, all wired up. Clone and ship.

NestJS · Docker
